

CYNTHIA BURT

RESUMÉ

Statement:

I have been a graphic designer and business owner for nearly twenty years. I chose graphic design as a career before Mac became common in the workplace. My clients have since benefited greatly from my experience with the print process. I have grown with the graphic technology, expanding my expertise to include web design. From my at-home business in recent years I work on both Mac and PC platforms. The software I most use is Photoshop CS, Illustrator, QuarkXpress, and Dreamweaver. I also work in Freehand, InDesign and ImageReady. I held a position with Balance Bar Company as Art Director, which was valuable for the marketing and branding knowledge I gained.

I am also an oil painter. I paint scenes of Santa Barbara and have participated in several local art shows. I live in Santa Barbara with my husband and two daughters.
